

The logo for iPower, featuring the word "iPower" in a white, sans-serif font. The dot on the "i" is replaced by a small, stylized graphic of a person with arms raised. The background is a dark blue with white circuit-like lines and a large, faint, light blue stylized "W" or mountain shape at the bottom. A solid orange rectangle is positioned in the upper right area.

OUR STORY

Transformation through technology

iPower started in Jeddah in 2016 with a small office and one purpose: to help organizations stay competitive through technology.

Our dedicated service and customer focus let us grow into a trusted integrator for leading Saudi banks and enterprises, with offices in Jeddah and Riyadh serving clients across the Kingdom.

WHAT DRIVES US

Vision, mission and values

Vision

To creatively build technology that drives impact and makes life better for everyone, everywhere: individuals, organizations and communities.

Mission

To deliver an excellent customer experience in every market we serve, and to be known as a leading IT systems integrator in Saudi Arabia.

Customer commitment

Expertise and service that build long-lasting relationships of trust and quality.

Quality

Strong quality assurance, end to end, so every delivery creates maximum value.

Reliability

Timely delivery and up-to-date technology, adapted as the digital landscape changes.

Integrity

Full transparency, and every deliverable held to the highest ethical standards.

Accountability

We stay with our customers until they are satisfied, and own every commitment.

MESSAGE FROM THE BOARD OF DIRECTORS

Since iPower was founded in 2016, we have committed to understanding our clients' needs and delivering technology solutions that serve their business and support their growth.

Over ten years, we have built lasting relationships with our clients and partners, and developed our supply, implementation and support capabilities to serve organizations across every region of the Kingdom.

We look to the next stage by expanding our expertise in AI infrastructure, cybersecurity and managed services, while keeping what the company was built on: quality of delivery, honoring our commitments, and accountability for our results.

We thank our clients for their trust, our partners for their collaboration, and the iPower team for their effort and expertise. We will keep working to build lasting value for everyone who relies on us.

The Board of Directors — iPower

PRODUCTS & SERVICES

One partner for your entire IT stack

INFRASTRUCTURE

Data Center Solutions

Design and build of secure, high-performance data centers: compute, storage, power and cooling.

Servers & Storage

Enterprise servers, SAN/NAS and hyperconverged storage from Dell, HPE and Lenovo.

Networking

LAN/WAN, wireless and SD-WAN with secure, high-availability design.

Structured Cabling & ELV

Certified cabling, CCTV, access control, PA and intercom systems.

End-User Computing

Laptops, desktops and peripherals supplied, imaged, tagged and supported at scale.

Meeting Rooms & Collaboration

Video conferencing, interactive displays and wireless presentation.

CYBERSECURITY

Cybersecurity

Network and endpoint security, threat detection, NCA ECC compliance and penetration testing.

Backup & Disaster Recovery

Immutable backups, replication and tested recovery for critical systems.

LICENSING

Microsoft Licensing

Advisory, procurement and renewals for Microsoft 365, Azure and on-premise.

Software Licensing

Veeam, Red Hat, IBM, OpenText, Adobe and more, with renewal tracking.

CLOUD, DATA & AI

Cloud Solutions

Migration, hybrid cloud, cloud backup and cost optimization.

Data Analytics & BI

Alteryx analytics automation and Power BI dashboards.

Private AI Infrastructure

On-premise AI platforms that keep sensitive data inside the organization.

MANAGED SERVICES

Managed IT Services

Service desk, remote support, staff augmentation and SLA-based management.

Support & Maintenance

24/7 remote and onsite support, preventive maintenance, multi-vendor.

IT Warehousing & Logistics

Secure storage, kitting, asset tagging, nationwide delivery and data destruction.

HOW WE WORK

From assessment to long-term support

01

Assess

We study your environment, requirements and constraints.

02

Design

We propose the right solution and brands, with a clear scope and cost.

03

Deliver

We supply, install and configure, then hand over with full documentation.

04

Support

We stay with you for maintenance, renewals and expansion.

SECTORS WE SERVE

Banking & Finance

Secure, compliant infrastructure for banks and financial institutions.

Government

Reliable IT for government entities, aligned with national standards.

Healthcare

Dependable systems for hospitals and healthcare providers.

Enterprise & Telecom

Scalable IT for large enterprises, operators and service companies.

OUR CLIENTS

Trusted by leading Saudi banks and enterprises

OUR PARTNERS

Backed by global technology leaders

WHY IPOW

Built on excellence. Creating value.

One accountable partner

Supply, implementation, licensing and support under one contract.

Proven with banks

Trusted by leading Saudi banks with demanding security requirements.

Certified people

Technical teams certified on the products and services they deliver.

Kingdom-wide reach

Offices in Jeddah and Riyadh, nationwide delivery and installation.

Logistics built in

Warehousing, kitting, imaging and asset tagging before every rollout.

Long-term support

Maintenance, renewals and expansion handled for you.

SAUDI VISION

2030

We contribute to the Kingdom's digital transformation by helping organizations in banking, finance, health and government stay competitive and technologically sound, and by building local expertise in every project we deliver.
